#### ***Allowable Subject Matter***

1. Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art of record neither shows nor suggest a method for making an EL device comprised of, in part, thermally transferring a transfer layer with a first emitter on a receptor and disposing a second emitter layer on the transfer layer, along with the rest of the limitations of the claim.

Regarding independent claim 9, the prior art of record neither shows nor suggest a method for making an EL device comprised of, in part, providing a non-patterned layer with a first emitter and thermally transferring a transfer layer with a second emitter on the first emitter layer along with the rest of the limitations of the claim.

Regarding independent claim 16, the prior art of record neither shows nor suggest a method for making an EL device comprised of, in part, providing a solvent-susceptible layer and disposing a first emitter layer and a non-volatile component on the solvent-susceptible layer and disposing a second emitter layer thereafter, along with the rest of the limitations of the claim.

Regarding independent claim 21, the prior art of record neither shows nor suggest a method for making an EL device comprised of, in part, providing a solvent-susceptible layer with a first emitter and disposing a second emitter layer with a non-

volatile component on the solvent-susceptible layer, along with the rest of the limitations of the claim.

Due to their dependency, claims 2-8, 10-15, 17-20, and 22-25 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
